RETAINING WALL LONG SECTION
HORIZONTAL SCALE 1:500
VERTICAL SCALE 1:250

SECTION A
NOT TO SCALE

NOTE:
EXISTING VEGETATION EXTENDING INTO PRESTONS PARK PROPERTY TO BE NEATLY TRIMMED BACK TO PROPERTY BOUNDARY.
METHODOLOGY TO BE APPROVED BY BAYNES PRIOR TO COMMENCEMENT OF TRIMMING.

AERIAL IMAGERY FROM LINZ DATA SERVICE UNDER A CREATIVE COMMONS LICENCE AND FLOWN 2015-2016

THE GEOTECHNICAL DESIGN OF THE RETAINING WALL DOES NOT REQUIRE A SUBSOIL DRAIN DUE TO THE PRESENCE OF FREE-DRAINING GRAVEL BACKFILL MATERIAL DIRECTLY BEHIND THE WALL. THE SUBSOIL DRAIN RUNNING BEHIND THE WALL AND CONNECTING TO A SUMP IN MAIREHAU ROAD IS ADDITIONAL TO THE TECHNICAL REQUIREMENTS AND IS NOT CRITICAL AND SHOULD NOT REQUIRE AN EASEMENT.
