

Professionals is a Gold Star Sponsor of the Child Cancer Foundation. Since 1994 we have helped them continue their invaluable work by contributing over four million dollars in donations and project funding.

The Child Cancer Foundation provides emotional, practical and financial support to ensure that 'every child and their family walking the child cancer journey will never feel alone'. It receives no direct government funding and relies solely on community support.

The Foundation offers children with cancer Beads of Courage®, a registered, therapeutic programme which provides a physical story of a child's journey; each bead representing a treatment, experience or milestone.

The Foundation also provides practical resources such as Family Places - staffed day centres for both locals and those traveling away from home for treatment, and holiday homes where families can take a break from the hospital to spend quality time together.

**Golf Format:** Stableford. There will be a competition for stableford individual handicap, stableford non-handicap and stableford teams of four.
